Protect your family against lead paint hazards

018

Consumers who want to know more about the hazards of lead paint before buying, selling, renting or remodeling a home can receive a free brochure, "Protect Your Family From Lead in Your Home," from Attorneys' Title Guaranty Fund, Inc. (ATG).

The brochure was prepared by the Environmental Protection Agency to advise the public about a federal law which requires them to be informed on lead paint, its hazards, and what they can do about it if the housing was built before 1978.

For more information or to obtain a free brochure, call ATG at 1-800-252-0402 or write PO Box 9136, Champaign, IL 61826-9136.
